New Jersey Author Release International Thriller Ring Of Deceit

Former Political Science Professor, Carole Holden, is pleased to her new book, Ring of Deceit. This international crime thriller mixes the authors expertise with headlines drawn from today's papers.

Frank Hughes is crazy with grief over the death of his AIDS-stricken lover. When he is found dead in the grass at the base of his apartment building, his best friend, Cece Gardner, can't believe that he has committed suicide. As she crosses the police barrier to enter Frank's apartment, she finds a puzzling telephone message from the Drug Enforcement Agency that leads her to the eventual realization that Frank has been murdered.

Headstrong and reckless, Cece is determined to find the killers. Meanwhile, a lethal and virtually undetectable cache of bogus medicines intended for shipment to the United States has just been found by authorities in Dubai. After Cece learns the truth about Frank's death, she unintentionally becomes a target of the vicious ring of smugglers and purveyors of the contaminated meds. Aided by Johnny Gault, a former DEA agent, she continues her quest to find Frank's killers—some of whom are masquerading as doctors at local AIDS clinics.

From Nigeria to New Jersey, the ring of counterfeit drug smugglers are intent on wreaking havoc on innocent patients and Cece is willing to risk everything to uncover the truth.

The nuclear device is secreted inside a container and put aboard a ship headed for the Port of Newark. But CIA Agent Peter O'Brien learns only part of Kuchenkov's story before both O'Brien's informant and Kuchenkov are killed. Thinking that O'Brien knows about the plan to detonate the bomb near New York City, the CIA agent becomes the terrorist's next target. O'Brien manages to call his friend, New York Times journalist Hank Brennan, and desperately pleads for help.

Brennan embarks upon a reckless scheme that puts the life of the woman he loves at risk and brings him face-to-face with the terrorists, who will stop at nothing to fulfill their mission.
